

Auto Repair Reference Center

Auto Repair Reference Center is a powerful online reference system offering easy access to a wide variety of information pertaining to automobiles. You can search the database by year of vehicle, locating the make, model and engine type to learn about various topics such as: repair procedures, wiring diagrams, specifications, and maintenance intervals of automobiles.

Access Auto Repair Reference Center (ARRC) at the K-12 schools Pioneer Library web page. On that screen, click EBSCO.

In this section we will work with **Auto Repair Reference Centers**.

When you click on a year, you see a list of makes. Click a make, and on the next screen choose a model. Then you may select a topic such as Repair Procedures, wiring diagrams or specifications.

Care & Repair Tips Troubleshooting

Please choose the year of your vehicle:

Choose year of vehicle →

| | | | | | |
|----------------------|----------------------|----------------------|----------------------|----------------------|----------------------|
| 2004 | 1995 | 1986 | 1977 | 1968 | |
| 2003 | 1994 | 1985 | 1976 | 1967 | 1959 |
| 2002 | 1993 | 1984 | 1975 | 1966 | 1958 |
| 2001 | 1992 | 1983 | 1974 | 1965 | 1957 |
| 2000 | 1991 | 1982 | 1973 | 1964 | 1956 |
| 1999 | 1990 | 1981 | 1972 | 1963 | 1955 |
| 1998 | 1989 | 1980 | 1971 | 1962 | 1954 |
| 1997 | 1988 | 1979 | 1970 | 1961 | |
| 1996 | 1987 | 1978 | 1969 | 1960 | |

Auto Repair Reference Toolbar

On the top bar you have access to two information databases: Care and Repair Tips and Troubleshooting. Both of these databases allow you to browse topics in a table of contents, or search for key words. They provide general information that is not unique to a year, model, or vehicle type.

Let's Practice

1. Click the year 2003, then click on Ford, then on Expedition.

Vehicle Selected: [2003](#) | [Select another vehicle](#)

| | |
|--------------------------|---------------------------|
| ACURA | AUDI |
| BMW | BUICK |
| CADILLAC | CHEVROLET |
| CHRYSLER | DODGE |
| FORD | GMC |
| HONDA | HYUNDAI |

Vehicle Selected: [2003](#) | [FORD](#) | [Select another vehicle](#)

| | |
|---------------------------------|---------------------------------|
| CROWN VICTORIA | E-150 ECONOLINE |
| E-250 ECONOLINE | E-350 ECONOLINE |
| E-450 ECONOLINE | ESCAPE |
| EXCURSION | EXPEDITION |
| EXPLORER | E-150 PICKUP |

2. Select engine type. This will provide topics that you may choose from. What repairs are required for a Ford Expedition?

3. Examine the wiring system. Why would this be important to know?

4. Click on the year of your vehicle.

5. Click on the make of your vehicle.

Vehicle Selected: [2003](#) | [FORD](#) | [EXPEDITION](#) | [Select another vehicle](#)

2 records found matching your vehicle selection . Choose one below.

| | Submodel | Engine Type | Liters | Fuel Delivery | Fuel |
|---------------------------------------|----------|-------------|--------|---------------|------|
| <input type="button" value="Select"/> | | V8 | 4.6 | GAS | FI |
| <input type="button" value="Select"/> | | V8 | 5.4 | GAS | FI |

6. Next, click on the model of your vehicle. If necessary select engine type.

7. Select the topic you want to see in the **Topics** field (for example: "Maintenance Intervals"). It will open up different subtopics.

8. Click on a subtopic (for example: "Excursion Maintenance Intervals") and it will open the file in PDF (a scan of the original document). From this screen you can Print, E-mail, or Save it.

9. Find out what your vehicle maintenance mileage interval schedule is.

10. Repeat the process and look for information about your vehicle wiring system. How does this information help you?
